

Board of Management Vacancies

Tallangatta Health Service is seeking applications from Community minded persons to fill vacancies that currently exist on the Health Services Board.

Board of Management members are appointed on recommendation from the Minister for Health to the Governor in Council and are responsible within the framework of Government policy for setting the strategic directions of public health care services. They are responsible for ensuring that public health services are efficiently managed; of high quality and meet the needs of the community; and for ensuring that objectives and performance targets set by the Department of Health are met.

Board members will be selected, having regard to the following criteria:

- Qualifications, skills and experience relevant to the governance of complex organisations, including areas such as health service delivery, finance, law, management and human resources.
- The capacity to reflect the views of users of health services and experience in effective consultation and collaboration with stakeholders.
- An appreciation of broader policy context surrounding delivery of public health services.
- The need to ensure that each board has the right mix of relevant skills, knowledge and expertise.
- Board Meetings occur at 6.00 pm on the 4th Thursday of each Month.

It is Government policy that government boards and committees more accurately reflect the composition of the Victorian community. Therefore applications are encouraged from diverse groups to include representation of women, indigenous Victorians, Victoria's culturally diverse community and young Victorians.

If you consider that you possess the right skills and qualifications for this task and want to contribute to your local health service, applications are available from Tallangatta Health Service Telephone (02) 6071 5200 and/or from the web sites listed below and should be lodged with Tallangatta Health Service by 5.00 pm on 9th February 2011.

An invitation to attend an information evening is extended to those interested in becoming Board members. This will be held on Tuesday February 1st at 6.30pm in the Activity Centre, Tallangatta Health Service. RSVP to Denise Gigliotti on 02 6071 5217 by Monday January 31st.
